## PROFESSIONAL SUMMARY

Dedicated software development engineer with a solid foundation in Full Stack Development and proficiency in Java, JavaScript, CSS, SQL, and HTML. Possessing four years of leadership experience at Amazon, I excel in collaborating with diverse teams and thrive in dynamic environments. Passionate about leveraging technology for innovation, I am eager to contribute meaningfully to the evolving landscape of computer science.

## TECHNICAL SKILLS

- Java • HTML • CSS • JavaScript • Spring Boot • React • JDBC • Table Design • SQL • PostgreSQL • E/R diagrams • Agile
- Unit Testing (JUnit) • Integration Testing • Git • IntelliJ • GitHub

## TECHNICAL PROJECTS

### Website Portfolio (<https://josevala.github.io/Portfolio/>)

- Developed a professional portfolio showcasing projects with JavaScript, HTML, and CSS for demonstration and portfolio purposes
- **Demonstrated front-end expertise** by developing an interactive portfolio website
- Implemented design emphasizing user experience, responsive design principles, accessibility, usability, functionality, and aesthetics

### Training Quiz (<https://josevala.github.io/DHI2-Quiz/>)

- Collaborated on crafting a customized efficiency-optimizing questionnaire for Hawaii Amazon station multi-stop locations, streamlining routes and increasing efficiency by 20%
- **Elevated site quality and compliance** through the design and implementation of interactive training modules integrating scenario-based learning and microlearning strategies
- **Boosted driver productivity by 30%** with advanced technology and personalized training, including tailored modules and resources

### Movie Catalog (<https://josevala.github.io/Movie-catalog/>)

- **Engineered a responsive** movie catalog website showcasing ratings, synopses, and cast information for comprehensive movie details
- **Improved user engagement by 50%** and improved data visualization by 25% using advanced JavaScript for data manipulation and display. Utilized object-oriented programming principles to create modular and maintainable code
- **Applied object-oriented programming** principles to create modular and maintainable code architecture

## PROFESSIONAL EXPERIENCE

### Driver Trainer

Oct '21 - Present

Amazon | Anaheim, CA

- *Spearhead weekly regional meetings aimed at addressing compliance concerns, providing comprehensive reports on training capacity to regional managers, and resolving any training- related compliance issues*
- *Conduct engaging training sessions for groups of up to 8 employees, fostering strong relationships, enhancing productivity, and promoting active engagement*
- *Coordinate training events by meticulously scheduling and assigning training content to drivers, guaranteeing a seamless onboarding process*

### Receiving/Sort Operations Supervisor

Feb '20 - Oct '21

Amazon | Santa Ana

- *Maintained a full understanding of workflow and daily production goals to ensure all freight gets sorted in a timely manner for delivery*
- *Arranged associate roles by keeping track and providing feedback on their performance to maintain production rates*
- *Reported and kept track of associate labor to improve station costs on employee hours*
- *Ensured all trailers arrived and departed on time by creating reports and summaries to maintain compliance*
- *Collected data from all loads and input it into Excel spreadsheets to track business operations and determine staffing*

## EDUCATION

### Bachelor's in computer science

#### Southern New Hampshire University

- **Bachelor's in computer science** focused on software development, algorithms, and data structures

### Full Stack Development Program

#### Tech Elevator

- Full stack bootcamp designing software systems and solutions with 800+ hours of education and application
